

HOME-GROWN POWER PLANTS

THINK
RENEWABLE
ENERGY.
THINK RMB.

RMB was the sole mandated lead arranger in financing two solar PV power plants – for South Africa, by South Africa.

Rand Merchant Bank applied their expertise in structuring large-scale renewable energy projects to successfully fund two solar projects, in Aurora and Vredendal, using South African made solar PV panels. The deals form part of several large-scale renewable energy projects designed to meet South Africa's growing energy needs while preserving our nation's rich natural heritage.
