RMB is IFC's chosen partner in raising a green bond in South Africa

Rand Merchant Bank facilitated the raising of a ZAR denominated, JSE inward listed bond for IFC, a member of the World Bank Group. IFC will use the proceeds to support investments in renewable energy, energy efficiency, and other areas that reduce greenhouse emissions in emerging markets. This transaction demonstrates RMB's support for low-carbon development in South Africa and paves the way for additional issuers to tap South Africa's green bond market. RMB is assisting IFC in doing what they do best - using responsible and sustainable business practices in order to expand businesses, create jobs and grow economies.
