RMB PARTNERS WACO INTERNATIONAL TO MAKE A BOLD STATEMENT

RMB Ventures is proud to be a co-investor in purchasing Waco International from foreign investors

RMB Ventures are co-investors in the Ethos-led private equity buy-out of Waco International. Waco International is a South African business with operations around the world, providing scaffolding and relocatable modular buildings. This brings the company back to local ownership and positions them for further growth, while demonstrating RMB Ventures' appetite for private equity deals.
